

INFORMATION FOR SERVICE PROVIDERS

FOR MEN, YOUNG MEN AND FAMILIES

Men and Co Services recognises the crucial role that our community services, support workers and agencies play in assisting men on their journey towards a safer future.

We are always looking to strengthen local partnerships and help build workforce capacity to recognise domestic and family violence, respond in a safe way and assist in meaningful referrals for support.

If you are interested in upskilling, growing your confidence or have questions about approaching the issue of people using violence, we welcome your enquiries at enquiries@menandcoservices.org.au.

Everybody can play an important role in changing our community's approach to domestic and family violence – please reach out if you are interested in learning more!

We've started this journey alongside The Centre for Women and Co. by offering Safe and Together – an international model of responding to families impacted by use of domestic and family violence. Please see our website for more information if you are interested in this four-day CORE training.

Our organisation can offer formal training, face to face development sessions, opportunities to connect with Communities of Practice related to domestic and family violence and resources to support your work.

Please send any requests via email and we will respond when we are able or please access our website for upcoming opportunities.

We thank you for forming part of our crucial integrated response in the community.
